EDUCATION

Anjuman Institute of Technology and Management (VTU)
B.E. in Computer Science and Engineering (Data Science)

Bhatkal, Karnataka
Expected 2027

PROJECTS

RetinaXAI: Explainable AI for Diabetic Retinopathy and DME Detection | *Python, Deep Learning, Explainable AI*

- Built a deep learning pipeline that grades diabetic retinopathy and detects diabetic macular edema from retinal fundus images, with explainability to support clinical interpretation.
- Achieved a DR quadratic weighted kappa of 0.6452 and a DME ROC-AUC of 0.9244 in the Review 1 evaluation.
- Diagnosed low Grade-4 (PDR) sensitivity of about 38% and planned a fix using oversampling and focal loss.

SightLite: On-Device Visual Perception for Browser Agents | *Vision Transformer, LLM, Smart India Hackathon 2026*

- Designed a hybrid client-server architecture pairing a local Vision Transformer for on-device perception with a remote LLM for reasoning, for an ISRO-backed problem statement (SIH26171).
- Worked in a 6-member team (Dcoders); produced the pitch deck, technical report, and Q&A preparation mapped to the judging criteria.

AI Email Assistant | *Flask, Hugging Face Transformers, SQLite, Bootstrap 5*

- Built a web app that classifies emails using zero-shot NLI with facebook/bart-large-mnli, evaluated on the Enron corpus with a proper train/test split.
- Stored results in SQLite and delivered a responsive Bootstrap 5 interface backed by a Flask API.

Titanic Survival Prediction | *Python, Pandas, scikit-learn*

- Completed feature engineering and model tuning for the Kaggle Titanic competition, scoring 0.77751 (top ~23%).
- Published the full workflow on GitHub (titanic-survival-ml).

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML/CSS, SQL

ML & Data: Pandas, NumPy, scikit-learn, XGBoost, Hugging Face Transformers, Explainable AI

Web & Tools: Flask, Bootstrap, SQLite, Git, GitHub, Kaggle

Coursework: Machine Learning, Exploratory Data Analysis, Data Visualization

LEADERSHIP AND ACTIVITIES

ArenaX, STEM'25

Organizer

Anjuman Institute of Technology and Management

2025

- Contributed to organizing and coordinating ArenaX as part of STEM'25.
- Assisted with event activities and participant coordination during the event.

Smart India Hackathon 2026

Participant, Problem Statement SIH26171

Team Dcoders

2026
